COMMERCIAL INTELLIGENCE

TUESDAY EVENING, MARCH 28.

TELEGRAMS from home quote Consols ¼ lower, viz., 101⅛ and Bar Silver 1-16 higher, viz., 52d., but all other stocks, etc., are as before. Wheat and Seeds are reported unchanged, and Metals are still quoted—Copper Braziers £75-10, Wallaroo £89-10, Yellow Metal 6¾, and Hard Spelter £11-5

In Liverpool Cotton was dull, and Mid-Uplands are now quoted 6⅞d. The sales of the day were 10,000 bales, and arrivals are reported lower. Surats are quoted :—

Oomras	Good, F. G. F. Clause, April-May,	Cape,	5⅜
Do.	do. do.	do.	Canal, 5⅜

In America the receipts were 9,000 bales ; quotations unaltered.

Manchester was quiet but steady, and old quotations are reported. There does not seem to be much business doing there, but makers, looking to the position of cotton, seem quite firm in refusing the equivalents of the low prices current in Eastern markets generally.

The rate at which we yesterday reported sales of Copper Braziers in this market ought to have been forty-six rupees and twelve annas, and not forty-six rupees and eight annas as was given by mistake.

The Cotton Market here to-day is very dull, and prices are lower. Broach is quoted Rs. 225 to Rs. 226 for April delivery. Fine Oomras have been done at Rs. 205, and good are worth about Rs. 196. Fine Dholeras are worth Rs. 208 to Rs. 209.

EXCHANGE.—Demand Drafts and Telegraphic Transfers are a shade firmer, and Mercantile Bills are also rather more difficult to place. We quote rates as follows :—

	Tel. Demand.	3 months'.	4 months'
Bank	Is 8 9-32d.	Is 8 13-32d.	Is 8 7-16d.
	3 months' sight.	6 months' sight.	
Credits	Is. 8 17-32d.	Is. 8 11-16d.	
Documents	Is. 8 19-32d.	Is. 8 27-32d.	
Francs	216¾	216⅞	

SHARES.—The downward tendency in shares still continues, and we have to report a decline of Rs. 5 to Rs. 25 in our quotations, especially in Spinning Companies' shares. The Alliance, the Bombay United, and the Coorla Mill shares were lowered by Rs. 5. The Parel Mill shares were sold at a decline of Rs. 15.

GOVERNMENT PAPER.—Some business was done in the morning in 4 per cents. at 101¾, but the market closes weak at 100¾, with hardly any buyers. Nothing doing in 4½.

THE Goa Government, it is stated, will claim from the Government of India an indemnity, calculated on the figures for the past three years, for the loss the Goa treasury will sustain by the abolition of the customs duties. A new table of dutiable goods corresponding to the British tariff will be introduced at Goa, and the Custom House employés will be reduced to about half their present number without delay.

HIS HIGHNESS KHENGARJI, the young Rao of Cutch, is expected about the 10th April next in Bombay, *en route* to Mahableshwar, where, we understand, he proposes to spend the hot season. The leaders of the various sections of the Cutch community in Bombay met on Sunday last to consider what steps should be taken to give a fitting welcome to His Highness on his arrival here. From the proceedings published in another part of our paper, it will be seen that the Jathelis of Bombay propose to receive the ruler of their native State in a right royal fashion. The splendid mansion at the Malabar Hill, the Duria Mehel, the property of the late Mr. Dwarkadas Yugnath, is placed at the disposal of His Highness during his stay in Bombay. General and Special Committees have been formed to carry out arrangements connected with the feting of His Highness. It is also proposed to present the young Rao with an address on behalf of the Bombay Cutch population. This is the first visit the young Rao to Bombay.

A BUSHIRE correspondent writes to an upcountry contemporary :—Mr. and Mrs. Phelps, the American travellers, who had arrived at Bushire by the Bombay and Persia Steam Navigation Company's steamer Calder, on their way to Bussrah, returned by the same Company's steamer Henry Ballow on the 7th instant, and are enjoying the hospitality of the British Residency. They are making preparations to travel into Persia.

COLONEL JAMES BLAIR, V. C., Commandant, 1st Bombay Lancers, is granted a good-service pension, from the 21st February last, in room of Colonel Macdonald, succeeded to colonel's allowances. Colonel Blair joined the Army in 1843, and obtained his troop in 1857. He served at Nimbahera and Jeerun, in the ... and which affairs he was severely wounded ; at the siege of Neemuch ; at the siege and assault of Kotah and pursuit of Tantia Topee in 1858 and 1859 (Victoria Cross, medal, and clasp), and also commanded a force of cavalry, infantry, and guns at Purtabghur, in pursuit of Feroze-shah.

SAYS the Lahore paper :—A Club in Calcutta is hilarious. When man, proud man, drest in a little brief authority, plays pranks in these festive but levelling institutions, he generally not only makes the angels weep, but men laugh—consumedly. A well-known and very popular officer, a Captain of long standing and great ability, holding a civil appointment of mark, played whist one evening with a Secretary, and lost some money. The next morning he sent the rupees to the Secretary—who was also a Colonel—with a note "My dear So-and-so, here are the rupees. The reply was prompt : "My dear so-and-so, thanks for the rupees ; *but wouldn't 'Colonel' have been better?* When recovered from the sharp but severe spasms which ensued on the perusal of this note the Captain handed it round the Club, whence it subsequently wandered to move all Calcutta to becoming mirth.

A propos of the decentralisation policy, the *Pioneer* remarks :—In regard to the way in which self-government might be taught, it is perhaps surprising that Government has not seen fit to try the experiment of *training*, rather than spending money through the agency of native committees. Native populations would not, as a body, deny the propriety of taxing rates ; but they distrust any direct elections by Government agency, and with very good reason. For the agency employed by Government is sure to be corrupt and treacherous, and the agency which supports it—the ordinary magisterial machinery of the administration too sharp and decisive ; qualities in which, as flies are found in amber, mistakes and injustice are no doubt apt to be imbedded. Government might say therefore, "Here's a big town, it ought to pay so much a year in local rates ; we mean to appoint a native committee to operate quite by itself without having any other control to interfere with its freedom of action, and that committee shall be the local magistrates of the town. It shall raise the ... mercantile and artisan class as it ... fit ; and we shall not interfere, unless it is shown by subsequent complaints that flagrant tyranny or injustice has been exercised. That might be beginning at the right end, and by degrees the native committees, a little expanded and behied at first for that purpose, might be entrusted with the spending of the money raised on local objects.

THE *Civil and Military Gazette* considers some distinctions might justly be conferred on old and distinguished volunteer officers in India.—"We know of an officer, who was some little while ago strongly recommended, on high authority too, for a C.I.E.-ship ; and considering that he was one of the oldest officers in one of the oldest Volunteer Corps in India ; considering, also, his services in the Corps to which he was attached, the honour might, we think, have been very justly conferred. But it was not conferred. The only volunteer officer whom we have heard of as having received a C.I.E.-ship is Colonel Walton, of Calcutta ; but it seems that the decoration was not specially conferred on account of his services as a volunteer. This want of State recognition can hardly conduce to the popularity of volunteering. The service is subjected to far greater disadvantages in India than in England. To put the case comprehensively, climate is against it. Only during a portion of the year are drill, rifle practice, and other exercises possible ; and even at the best of times the best of constitutions feel the bad effects of exposure to the sun. In England volunteering is a bracing form of what is known as 'a constitutional ;' in India it is as often as not a fatiguing task. Speaking of the respective ages of Indian Volunteer Corps, we believe the oldest, next to one of the Madras Corps, is the Punjab Volunteer Corps. The first company was organised in 1860, and gazetted in April, 1861."

THE reports of the Revenue and Agricultural Department on the state of the season and prospects of the crops throughout India for the week ending the 21st March, are summed up in the following "General Remarks":—The rainfall during the week has been confined to Assam and to one or two districts in Bombay, the Punjab, and the Central Provinces. Harvesting is in progress in almost all parts of the Madras Presidency, but the outturn of dry crops is below the average ; general prospects are good. In Bombay the rabi harvest continues in some of the districts ; scarcity of drinking water is still felt in Dharwar ; in Thana there has been a number of cases of cholera, otherwise public health is generally good. The rabi harvest is progressing in Bengal, and is expected to yield an average outturn, except in a few districts where the rainfall was deficient ; preparation of lands for autumn crops is going on ; the general health is good, but small-pox continues to be reported from several places, and there is cattle-disease in a few parts. In the North-Western Provinces and Oudh hot winds have set in ; general health continues good ; cattle-disease still exists in Kumaun and Jhansi, and there have been a few cases of cow-pox in Benares. Harvest prospects are favourable throughout the Punjab, and the health is good ; prices are now generally steady. In the Central Provinces rabi harvesting continues, and prospects are good ; a few cases of cholera and small-pox are reported, but the public health is otherwise good. In Mysore the dry crops have been harvested, but those dependent on irrigation are suffering from scarcity of wate ; prospects are fairly good, although the want of drinking water and pasturage is still felt in parts ; health generally good. Harvesting has commenced in most districts in Rajputana, and prospects are good. There is a little cattle-disease in British Burma ; otherwise prospects are generally good in that Province, and in Assam and Berar and Hyderabad.

THE Shah of Persia has just ordered from an Austrian firm thirty Uchatius mountain guns, of seven centimetres calibre, besides several thousand Wernidel rifles and a large number of uniforms.

NEWS was received in London at the beginning of the month, of the expedition by Mr. A. Colquhoun through Southern China into Burmah. A telegram despatched from Hong Kong, stated that the expedition had reached in safety the town of Wauchow (Oochow), which is a town of some importance about 150 miles up the Canton River, and was to start on the 28th of February from Wauchow with the interpreter, a dozen porters, and servants up the river in continuance of the journey.

THE *Daily News* says :—"We have more than once referred to reports which have reached this country as to negotiations being in progress for the settlement of the Basuto question. We now learn on undoubted authority that the Cape Government have formally demanded from the Colonial Office full power to deal with the Basuto difficulty in their own way, and have at the same time intimated that, if their request is not granted, they will propose to the Legislature at Cape Town to withdraw the colonial authority from Basutoland."

TELEGRAMS from Tunis to the London papers before the last mail left state that the Arabs had successfully attacked two large villages in Southern Tunis. Ali Ben Kalifa's followers then numbered over one hundred thousand. The renewal of hostilities in the spring was considered almost certain. Large quantities of stores continued to arrive daily at La Goletta and Susa ; and this circumstance was regarded at Tunis as in contradiction to the reports recently circulated as to the approaching withdrawal from Tunis of the French Expedition-ary Corps.

A extraordinary scene was witnessed at a recent Salvation Army meeting at Camborne. Captain Williams was recently commissioned by "General" Booth to conduct a campaign, "Lieutenant" ..., a woman, being ordered to assist him. Miss ... appeared to have become the more popular teacher, and her services were dispensed with by the superior officer. During a meeting on Tuesday ... Medlyn was observed seated among the congregation, and loud calls were made for her to speak. The captain objecting, much uproar followed, in the course of which the worshippers carried Miss Medlyn to the pulpit, while the captain was mobbed and ... featened, amid cries of "Kick the blackguard out" and "Give him Camborne"—an allusion to the local style of wreaking vengeance. The police were called in, but were powerless ; and Miss Medlyn's protest that she had been discharged from the service from motives of jealousy increased the rage of the mob against the captain. He avoided further ... by temporarily withdrawing from the "barracks," leaving Miss Medlyn in possession.

THE Ragusa correspondent of the *Manchester Guardian* has had an interview with several of the leading insurgent commanders. He says:—

Stojan Kovachevich told me that great confidence prevailed at the Herzegovinian head-quarters, and he confirmed the news of the capture of Ustikolina, and a station near Trunintza. He vehemently affirmed the truth of a great insurgent success at Gatzko, on the 19th instant. He stated as a positive fact that the Austrian soldiers had been taken prisoners, and between 500 and 600 rifles captured. A small body of soldiers had barricaded themselves in a church, and the insurgents wished to knock in the walls with dynamite, but the inhabitants begged them to spare it, so it has been decided to starve out the soldiers. The total number of insurgents in the field is estimated at over 5,000. The revolt, he said, was certainly spreading, and the insurgents could increase their numbers many times over if they only had more arms and ammunition. He denied that they were receiving arms from Montenegro. Many men in their ranks had neither gun nor handjar. They had, however, every ground of hope that their brothers and their gracious Hospadar, or master, as they call the Prince of Montenegro, would not leave them to be shot down. I can only trust that hitherto Prince Nicholas has given Austria no occasion for remonstrance as to the non-fulfilment of international obligations. He can further point to the fact that a cordon is established along the Montenegrin frontier. Nothing could be more diplomatically correct, but the situation is none the less grave in the extreme.

BOMBAY HARBOUR MISSION.

TO THE EDITOR OF THE "BOMBAY GAZETTE."

SIR,—I wish to thank those who so kindly forwarded some months ago magazines and books for distribution to the sailors. I also desire to say that I am very much in want at the present time of magazines and books suitable for ships' libraries, and if those who have any to give will kindly send them addressed to me at the Society for Promoting Christian Knowledge Depot, 3 Meadow-street, they will be most gladly received.

—I am, &c.,

THE CURIOUS SENTENCE OF A COURT MARTIAL.

TO THE EDITOR OF THE "BOMBAY GAZETTE."

SIR,—The story narrated by your correspondent "H. under the above title is so remarkable that I think, not only in the interests of history, but in those of common humanity and for our own credit, it should be fully authenticated. Your correspondent gives no other authority for his quotation than that of an anonymous "old chronicle." If he would favour us with further particulars of the document in question, the value of his narrative would be greatly increased.

In writing this, I have no wish to impugn the correctness of the facts related by "H. There is no doubt that the terrible punishment of Damiens created a strong impression on the public mind, and it may not have seemed improper to Captain Carnac to adopt it as a penalty for a crime of a somewhat similar nature to regicide,

THE WORKING OF THE INDIAN POST OFFICE.

THE following is the Resolution by the Government of India on the report on the operations of the Post Office in India, for the year 1880-81 :—The same steady and successful rate of progress, which has characterised the administration of the Post Office for several years, has been maintained during the year under review.

The leading changes made included an expansion and revision of the Foreign Money Order system, the introduction of an improved system of Check and postage accounts, the reduction in the minimum rate for inland parcels and of the rate of commission on value-payable articles, a careful and thorough revision of the establishment and arrangements of the Calcutta Post Office, and the successful conclusion of an arrangement for additional postal accommodation on the Great Indian Peninsula Railway. An entirely new Post Office Manual was also introduced in the course of the year.

The number of Post Offices increased by 112, of letter-boxes by 291, and of village postmen by 131, during the year. There are now 4,522 Imperial and 728 District Post Offices, 6,729 letter-boxes, and 2,853 village postmen, under the control of the Post Office.

Considerable success has attended the efforts made to increase the number of Post Offices by the employment of cheap agencies—a system under which schoolmasters, shop-keepers and others are entrusted with postal work, for the conduct of which a small monthly allowances is given. Information has also been received, especially in Bengal, to an improvement in rural deliveries, by the employment of stationary postmen to receive the mails from runners, thus saving the time formerly spent in conveying the mails to and from the Post Office.

The distances over which the mail was carried show no material increase, owing chiefly the abolition of lines temporarily maintained in connection with the war in Afghanistan.

The number of articles given out for delivery during the year has increased by about 11 per cent., and represents a total of 158,607,000. Post-cards have increased nearly 50 per cent., and now number 14,855,000 ; paid postcards about 9 per cent. from 88,000,000 to 96,000,000 ; but registered letters have decreased about 10 per cent., from 3,000,000 to 2,710,000. It is satisfactory to note the increase in paid letters, as indicating that the large expansion in postcards has not diminished the number of letters written.

The fall in the number of registered letters is explained to be due to the large expansion of the money-order business since the new system recently introduced, and it would appear that remittances formerly made by means of currency notes in registered envelopes are now to a considerable extent made by money orders.

The operations of the Dead Letter Office were satisfactory. The total number of articles received amounted to 3,300,000 during the year, of which only 653,000, or about 20 per cent., have not been disposed of. This result compares favourably with the results of the previous year.

The foreign parcel post continues to exhibit a satisfactory development. Since the introduction of the system in 1873-74, the number of parcels has increased from 22,000 to nearly 80,000.

The gross revenue from the sale of ordinary postage stamps amounted to Rs. 80,25,000 as compared with Rs. 80,95,000 in the previous year. The increase was chiefly from the sale of post-cards and half-anna envelopes. The reduction in 1873 in the charge for half-anna envelopes from 10 annas to 8 annas per packet of 10 envelopes had the most marked effect on the sale of such envelopes. In 1872-73 the gross value of half-anna embossed envelopes sold amounted only to Rs. 3,193. In the succeeding year the value amounted to Rs. 61,963, and the increase has been so rapid that in 1880-81 the gross number of such envelopes sold was 37,350,000, and their gross value Rs. 11,85,000. The consumption has in fact reached the maximum number procurable from England in the year, and has been met by making a contract for an increased supply by which 57,000,000 envelopes will in future be supplied annually.

The total postage revenue collected in cash has increased by about 4 per cent., owing to the change in system by which money order and parcel postage are credited in cash instead of in stamps. This effect will be even more marked in future owing to the rapid extension of money order business.

Money order business was transferred from District Treasuries to the Post Office on 1st January, 1880. The increased facilities thus offered have resulted in an enormous increase of business. The monthly average value of money orders, which during forty years, was Rs. 7,14,000 ; in March 1880 under the new system, the average was Rs. 31,11,000, and for 1880-81 the monthly average value ... Commission or 7/8, 11,667. More than 14 crores of rupees have thus been transmitted from one Post Office to another in sums averaging Rs. 28½ for each order ; and although a novel and heavy pecuniary responsibility was placed on the servants of the Department the total sum decreed against the securityship and during the year on account of defalcations in this branch of business amounted to less than Rs. 1,500. As remarked by the Director-General, satisfactory evidence is thus afforded of the honesty of the natives of the country, who naturally form the great bulk of Post Master in India.

The total value of articles insured increased from about 7 to about 8 crores of rupees during the year. Public losses of every kind amounted in all to Rs. 10,491.

Six thousand four hundred and sixty-three complaints were made by the public during the year. A large number of complaints were really inquiries relative to the new branch of money order business. It is satisfactory to observe that the number of loss of articles posted in registered letters fell to 295 as compared with 443 in the previous year.

The financial results of the year compare favourably with those of the previous year, the net postal revenue, after payment of all charges, having increased from Rs. 10,96,000 to Rs. 11,10,000 during the year. But if the cost of railway service, English stores, marine subsidies, pensions and other additional charges is added, the surplus is changed into a deficit of nearly 3 lakhs of rupees.

The following table, extracted from paragraph 61, exhibits the general progress of the Department :—

Year.	Comparison of number of letters and newspapers (those of 1855-56 being represented by 100).	Comparison of number of parcels (those of 1856-57 being represented by 100).	Comparison of expenditure (that of 1855-56 being represented by 100.)
1855-56 first complete year of new rates	100	100	100
1870-71 sixteenth complete year of new rates	257	255	175
1879-80 twenty-fifth complete year of new rates	428	417	234
1880-81 twenty-sixth complete year of new rates	476	452	252

The thanks of the Government of India are due to Mr. Hogg for his able and energetic administration of the Department.

The work done by the officers of the Department, mentioned in paragraph 62 of the report, also deserves public acknowledgment.

THE GEOLOGICAL SURVEY OF INDIA.

THE Government of India's Resolution on the report of the geological survey of India and of the Geological Museum, Calcutta, for the year 1881, states :—The following field-work was done by the Department during the year. Mr. King, after closing his work in the Godavari region, took up the unsurveyed country in Travancore, and his examination of a tract of gneissic upland in that district has dispelled the belief formerly entertained that the rocks were auriferous. The gneissic and coastal formation of the Madura District were examined by Mr. Foote. Mr. Hacket completed his inspection of the immense stretch of country between Delhi and Neemuch, occupied by the Aravali series and the outlying rocks of the Vindhyan series and ... the South Rewah basin was examined for coal ... by Mr. Hughes, and some good seams were traced, though unfortunately they are distant from any railway. The coal-fields in the Upper Damuda Valley were visited by Dr. Feistmantel. Mr. Bose reported on the cretaceous rocks of the Narbada Valley. In Kattywar a large area was mapped by Mr. Fedden, and in Kashmir the Kishanganga Valley was examined with interesting results by Mr. Lydekker. Another officer, Mr. Oldham, was at work on the Simla region of the Himalayas, while Mr. Griesbach completed the survey of the Kuinum series up to the Nepal frontier. In the Darjeeling District some newly discovered copper beds were examined by Mr. Mallet.

The most important publication during the year was the 3rd volume of the Manual of Indian Geology compiled by Mr Bali. This last instalment of a very valuable work summarizes all that is known up to the present time as to the economic geology of India. Three parts of the Memoirs of the Department, comprising among other subjects Mr. Griesbach's explorations in Southern Afghanistan, were issued. Volume XIV of the Records of the Department, containing 28 papers of varied interest, was also published. Among these Mr. Hacket's paper on the Aravali rock series merits notice for its bearing on the unsettled problems of rock classification. Mr. King also contributed a valuable memorandum on the lower basin of the Godavari, the only coal in southern India in which coal deposits of any considerable extent have as yet been discovered. Considerable progress was also made in the publication of maps of tracts which had been surveyed by the Department, and the sale was asked and the key handed over to the accused. On Monday evening, after service, the chaplains discovered that the leaf in the diary upon which the entries had been made had been torn out of the book. Suspecting that he might be the person who had come to destroy the record of the amount of the entries, the Rev. Mr. Speus sent for the accused and got the key of the safe from him ; and on opening the safe found only Rs. 9 and some annas left of the money which had been placed in it the previous day. The magistrate convicted the accused, and sentenced him, as stated in a previous issue, to 12 months rigorous imprisonment.—*Civil and Military Gazette* (Simla) issue).

A DISHONEST COOK.—Goanese cooks are the greatest rascals in creation. For some time past ill patients in the Napier Station Hospital at Kurrachee have been complaining of receiving "short allowance" both for breakfast and dinner, and suspecting the head-cook, a man named Lobo, they brought the fact to the notice of Brigade-Surgeon Hunter, who at once placed him well in communication with the police. On the 21st instant Sub-Inspector Holmes proceeded to the hospital, and without saying a word to any one entered the head-cook's house, and to his surprise, found in his box 35 bottles of fat and butter, 5 tins of arrow-root, a tin containing 5 lbs. 10 ounces of sugar, a pound of tea, and in another part of the room 1,100 lbs. of wood, a bottle containing essence of beef for making soup, &c., &c. Master Lobo was tried before the Cantonment Magistrate (Mr. Foxton), who sentenced him to undergo 12 months' rigorous imprisonment and to pay a fine of Rs. 50, or in default, to undergo 3 months' additional imprisonment. A few more examples like these will soon teach these Goanese gentry not to rob the poor soldier of his food.—*Id.*

THE AFFRAY IN THE POONA THEATRE.—There was a performance announced to take place on the night of the 25th instant in the Ara Booshun Theatre, in Gunesh Peit, by two dancing-girls and the songster Narayan Maistree. The theatre was accordingly crowded that night, about 2,000 persons having assembled to witness what the programmes announced a grand performance. The two dancing-girls, named Bilkoree and Chima, appeared on the stage, but in consequence of the absence of Narayan Maistree, the songster, and the disappointment caused, the spectators demanded that their money should be returned to them. Narayan Maistree, however, got a tent lascar, was the first man who demanded his money ; and then the row commenced. It was about one o'clock the following morning when the theatre was cleared, and the chandeliers and lamps, chairs, &c., were seen flying about in pieces. The city Chief Constable, Mr. Rughnath Ramjee, immediately sent for Mr. Scannell, the District Superintendent of Police, Mr. Kyte, the Inspector, and Mr. W. Richardson, the City Magistrate, all of whom lost no time in repairing to the spot. A gowlee named Nana bin Seobana was found to be injured, as he was found senseless, and about eighteen persons were arrested as being the ringleaders in the affray. The estimated damage done in the theatre is said to be about Rs. 400. The police also arrested several persons who were carrying away the theatre chairs, and who will also be tried for robbery to-day. Some of the prisoners have been released on bail.—*Deccan Herald.*

THE KOLHAPORE LIBEL CASES.

THE EMPRESS *vs.* GOPAL GANESH ALGERKAR AND BAL GUNGADHER TILAK.

MR. PHEROZESHAW MEHTA, instructed by Messrs. Shapurjee and Thakurdas, for the defendants, moved on the Crown Side, under section 76 of Act X. of 1875, for commissions to issue in the case for the examination of witnesses for the defence at Kolhapore, Sawant Warree, Sangloe, Oorud, and Phaltun. The defendants were committed on the 15th inst. for trial at the Criminal Sessions, on charges of defaming Mr. Mahadeo Wasudeo Barve, the State Karbharee of Kolhapore, by libels in the *Kesari* news-paper, published at Poona, of which the accused are the editors and proprietors. The evidence was material to the defence, and some of it related to the conduct of Mr. Barve towards the Maharajah. Some of the witnesses were ladies and persons of high rank, and it would be unreasonable to require them to attend the courts. This application was objected to, and was not made for the purposes of delay. Mr. Barve had put in an affidavit in reply, stating that the accusations made against him related to his public as well as private conduct and character, and that the application was not *bona fide*, but was made for the purposes of delay and of causing annoyance to him. He further stated that it was not necessary to issue a commission with regard to some of the witnesses, as the Kolhapore Durbar, if asked, would send down to Bombay. Mr. Pherozeshaw asked for commissions for the examination of the witnesses whose names were mentioned in five letters attached to the affidavit of the defendant's solicitor in support of the application, as it would be impossible the learned counsel said, for the defence to secure the attendance of any of the witnesses by any process issued by the High Court, as several of the places were beyond the jurisdiction of the court. As far as the practice of the Crown Office was concerned, no summonses were issued for the Criminal Sessions to persons in the jurisdiction of native States. The court had the power to issue commissions for the examination of witnesses beyond the jurisdiction of the court, and it was usual to send down to Bombay by paying their travelling charges and other allowances from Kolhapore to Poona, and thence by rail to Bombay. It would, moreover, be a great hardship to the witnesses themselves to be taken away for several days from their respective avocations. The expense would be very great, and the defendants were utterly unable to bear it all. Not only was the defendants' paper published at Poona, but they themselves were residents of that city ; and yet the prosecutor, a resident of Kolhapore, had chosen to prosecute them, not at Kolhapore or Poona, but in Bombay ; and there was no reason why the defendants should be put to the trouble of bringing down their witnesses here. Mr. Barve spoke of the application being made to cause delay and annoyance to him. Mr. Pherozeshaw said that, instead of causing any delay, the examination of the witnesses under commission would obviate delay, while annoyance was caused, not to Mr. Barve, but to the accused who were brought down from a distant place to take their trial in Bombay. So far as some of the witnesses were concerned, the Political Resident said they must be examined under commission ; and it was for his Lordship to consider whether it would not be a far better arrangement to examine all the witnesses under commission, by which time and expense would be spared.

Mr. Inverarity, instructed by Messrs. Hearn, Cleveland, and Little, for the prosecution, objected to the examination of certain of the witnesses under commission, as they were under the control of the Kolhapore Durbar, and could be sent to Bombay at no very great expense. There would be a question, said the learned counsel, as to whether the court could compel some of the Chiefs whose names were mentioned to give evidence against their will in their own States. Mr. Inverarity could not possibly conceive what evidence those Chiefs could be expected to give in the case.

Mr. Pherozeshaw said some of the Chiefs were companions of the Maharajah at Kolhapore and elsewhere, and had seen the treatment to which the Maharajah had been subjected.

Mr. Inverarity remarked, with regard to the complaint of the trial taking place in Bombay, that the accused themselves wished to be tried in Bombay, and that it did not now lie in the mouth of their counsel to complain on that ground.

Mr. Pherozeshaw asked for an undertaking that the witnesses who were not examined under commission would be brought to Bombay.

Mr. inverarity could not give an undertaking, but agreed that all the witnesses should be examined by commission, with the reservation that, if any of them were brought to Bombay, their evidence taken under commission should not be used at the Criminal Sessions. The accused would be informed in time of the names of the witnesses who could be brought down to Bombay, so that they might be saved double expenses.

Mr. Pherozeshaw asked that the witnesses should not be brought to Bombay in custody of the Kolhapore police.

Mr. Inverarity said they would be brought down at the expense of the accused.

After some further discussion his Lordship directed commissions to issue, as applied for, for the examination of the witnesses, lists of whose names were to be handed in to the commissioners on the 10th instant, the commissioners to return the depositions by Monday, the 17th April next. His Lordship remarked that he would adjourn the Sessions from the 10th, the regular day, to the 17th April. Any witnesses who would not be brought down to Bombay need not be called before the commissioners.

Similar orders were passed in the other two libel cases.

EXAMINATION OF MR. G. H. R. HART.

LATER in the day Mr. Inverarity, with the consent of the defendants' solicitors, moved for the examination under commission of Mr. G. H. R. Hart, Private Secretary to His Excellency the Governor, who was about to leave for Mahableshwar on public business. His Lordship granted the application, appointing 3 o'clock to-morrow (Wednesday) afternoon for Mr. Hart's examination under commission before the Chief Presidency Magistrate at the Fort Police Court.

ABDEELOOL PUTTOOJOOP AND ANOTHER *vs.* PUROHUDAS PREMCHAND.

MR. BHAISHANKER, of Messrs. Anderson, Bhaishanker, and Bhalsaw, presented a plaint to recover Rs. 2,348, being the value of goods sold and delivered by the plaintiffs to the defendants.

His Lordship accepted the plaint as a short cause.

ABMEDBHOY HUBIBBHOY AND ANOTHER *vs.* THE LAND MORTGAGE BANK OF INDIA, LIMITED, *vs.* AHMEDBHOY HUBIBBHOY AND ANOTHER

THE plaintiffs' claim is for an injunction restraining the defendants, their servants and agents, from working or using the building at Colaba known as the Nicol Mill in such a manner as to occasion nuisance to the plaintiffs, or any person occupying the plaintiffs' premises known as the Grant Buildings. The plaintiffs also claim Rs. 1,000 as damages for the injury already sustained by them from the wrongful acts of the defendants. The Advocate-General, Mr. Inverarity, and Mr. Anderson, instructed by Messrs. Robinson and Wright, appeared for the plaintiffs ; and Mr. Pigot and Mr. Lang, instructed by Messrs. Jefferson, Bhaishanker, and Dinshaw, for the defendants.

Mr. John Greenwood was further cross-examined by Mr. Pigot, and said among other things, referring to a letter he had written to the home directors, that he thought then that the injury done the Grant Buildings might be met by money compensation, and that a reasonable offer might be entertained.

Mr. Pigot.—I think your Lordship would say that this letter contains something bearing upon the question of injunction.

Cross-examination continued.—Witness did not at that time make any estimate of the selling value of the Grant Buildings. In 1878 the Buildings were sold by public auction for Rs. 2,50,000. The low limit referred to in witness's letter of 4th April, 1881, appeared to be Rs. 4,00,000. The Building was valued at Rs. 2,75,000. The value had gone up considerably since then. The mill had not prevented the filling in of the eastern block with tenants, but the tenants did not remain any length of time. There were more tenants in the eastern block now than at any time before. If there were three blocks of the Grant Buildings, the witness would have no difficulty in filling them up. Witness admitted having written the following letter to Mr. Flower :—You will see by to-day's *Bombay Gazette* that the Nicol Mill is reported to have been sold yesterday. It is therefore of the very greatest importance that, before the Bank's suit is heard, indeed before the mill begins to work again, the eastern block of Grant Buildings should be as full of tenants as possible, so that there may be no difficulty in demonstrating to the court the real extent of the nuisance. If this can be done, I have no fear as to the result. You have so repeatedly assured me that this eastern block would be filled within a comparatively short time in consequence of the mill having discontinued work, that I have felt recently much disappointed on spite of the great progress made at the few tenants lately secured by you. At the present time I am really ignorant as to whether you are working for the Bank at all or not, in consequence of the disagreement upon the question of your commission. I wish you would put your shoulder to the wheel and get tenants, as I believe you can get them, soon, and don't trouble yourself about the commission, which you may safely leave in my hands after the suit is settled," &c. The plaintiffs had not lost the Rs. 1,000 claimed by the plaint, but they were losing something every day. Witness could not say what they had lost from the time the mill recommenced working up to the time the plaint was filed. The existence of the mill was very hurtful to the Grant Buildings ; and they could get a better price if the mill was not there. Most of the eleven tenants who left the eastern block on account of the nuisance were to be called to give evidence. The dust of the locality itself during the cotton season was a nuisance, apart from that caused by the mill. Witness sent round to the tenants a circular dated 14th February, 1881, asking them to express their opinion with regard to the mill nuisance. He did not think the nuisance could be exaggerated. In a letter to the Bombay board, dated the 20th September, 1881, witness said :—" Were the Grant Buildings my property, I would accept no compromise, but leave the mill to remain for ever as a standing monument of the folly and wickedness of its promoters." He thought it was wickedness to build a mill so close to where people were living. (Is shown another letter.) He thought he had in that letter stimulated complaints from tenants with regard to the nuisance. Witness admitted that property in Bombay had fallen in value since the plaintiffs advanced Rs. 7,50,000 upon the Grant Buildings. It was now looking up.

The court then adjourned.

(Before the Hon'ble Mr. Justice PINHEY.)

A HEAVY CLAIM AGAINST KESSOWJEE NAIK AND ANOTHER

SYDNEY SMITH *vs.* CHELLABHOY PUDOOMJEE AND KESSOWJEE NAIK.

MR. JARDINE, instructed by Messrs. Payne and Gilbert, appeared for the plaintiff ; and Messrs. Lang and Inverarity appeared for the defendants.

Mr. Jardine stated that the suit was to recover four-and-a-half lakhs of rupees from the defendants. When his Lordship saw the defence, then it would be for him to consider whether the suit should be taken as a short cause or not. As to the written statement, he (Mr. Jardine) must say that it had not been filed, although a considerable time had elapsed since the plaint had been presented. He would therefore ask his Lordship to order the defendants to file their written statement at once.

His Lordship ordered the written statement to be filed within a comparatively short time in consequence of the mill having discontinued work, the leave felt recently much disappointed on spite of the great progress made at the few tenants lately secured by you. At the present time I am really ignorant as to whether you are working for the Bank at all or not, in consequence of the disagreement upon the question of your commission. I wish you would put your shoulder to the wheel and get tenants, as I believe you can get them, soon, and don't trouble yourself about the commission, which you may safely leave in my hands after the suit is settled," &c. The plaintiffs had not lost the Rs. 1,000 claimed by the plaint, but they were losing something every day. Witness could not say what they had lost from the time the mill recommenced working up to the time the plaint was filed. The existence of the mill was very hurtful to the Grant Buildings ; and they could get a better price if the mill was not there. Most of the eleven tenants who left the eastern block

AMERICAN ORGUINETTE,

IMPROVED PATTERN.

THE AMERICAN ORGUINETTE is a Reed Musical Instrument, constructed somewhat on the principle of the American Organ, and adapted to be automatically operated by simple sheets or strips of perforated paper, each sheet representing one or more tunes. There is no limit to either kind or quantity of music it will play HYMN TUNES, POPULAR AIR, SET OF QUADRILLE, POLKAS, WALTZES, REELS and HORNPIPES with a clearness, accuracy and decreed execution which but few performers can equal. A MERE CHILD CAN PLAY IT. The music-box and all kindred instruments are the only expensive luxuries enjoyed by a few, but they are limited to a few set tunes, and so soon become tiresome, and as means of enjoyment to their owners, entirely worthless. The AMERICAN ORGUINETTE, with its automatic music sheets, represents both organ and organist, music, musician, and music-teacher, and so is admirably adapted for singing parties, dancing parties, winter evening entertainments, and educational purposes, and is, therefore, not only the latest musical wonder, but the price considered.

The most Marvellous Mechanical Musical Instrument of the Age.

It is the most simple, perfect, instructive, enjoyable, and amusing automatic Musical Instrument in the World.

PERFORMING EVERY DESCRIPTION OF MUSIC.

PRICE, WITH ATTACHMENT AND MUSIC, Rs. 60. Packing, Rs. 2 extra.

The above style is provided with an Expression Box, by means of which the quality and power of the tone are greatly varied.

EXTRA TUNES FROM RS. 1-8 EACH.

Excellent in tone. Unique in design. Perfectly simple in principle. Strong in construction. Durable in every part.

A larger instrument than the above at Rs. 250.

"CANTANTE RESONANTE" PIANO.

Its Recommendations are:—

APPEARANCE Handsome, Solid Dark Wood. TONE, Rich and Full, suitable for singing or for brilliant Pianoforte Music. COMPASS, Seven Octaves, Full Compass. CONSTRUCTION, Sympathetic Metal Frame. Latest improvements in action. CHEAPNESS, Price Rs. 630, Packing Case Extra.

Intending Purchasers are respectfully requested to inspect the above Instrument, and it will be found to be equal, if not superior, to any other Piano at the price sold in Bombay.

"Cantante Resonante" Piano sold on the Easy Payment System.
